

school_zone_h

Location: political\school_zone_h

Description

Polygons identifying attendance zones for public high schools in Bay County. Information as of **November 2008**.

For elementary and middle school attendance zones, see **school_zone_e** and **school_zone_m**.

Coordinate system: State Plane, Florida North Zone, Datum NAD83, feet (see **.prj** file)

Source

High school attendance zones were adopted by the Bay County School Board on October 13, 1999. Bay County GIS obtained zone descriptions from Bay District Schools (file **geographicalattendancezones2000-2001approvedOctober13,1999.doc**) and created a *draft* polygon shapefile in June 2000. GIS staff used **bocc_dists**, **county**, **parcels**, **plss**, **roads**, and heads-up digitizing to create the boundary features. Written descriptions from Bay District Schools included beginning on page two.

On November 28, 2000, met with Joette Bruner of Bay District Schools and got questions answered regarding the descriptions of two polys that seemed to overlap; had used wrong 17th St for both Bay and Rutherford descriptions.

In late September 2001, made changes to reflect changes mentioned above. In October 2001, met with Joette Bruner, Leona (?), and Rusty Holloway of Bay District Schools; dropped off draft copy of school zone map for their review and School Board approval.

In November 2003, edited layer to include the Bozeman Learning Center. Beginning in the 03-04 school year, the Mosley attendance zone was split into two: Mosley and Bozeman. This affects only 9th graders in the 03-04 school year; an additional grade level will be moved to Bozeman each academic year.

In November 2004, obtained new shapefile from Bay County School Board to update data. Deleted legal description at end of documentation. Updated file structure description to reflect changes.

In April 2009, Staff jointly worked with the Bay County School Board to update this shapefile, reflecting changes for the upcoming 2009 – 2010 school year. Updated File structure to reflect changes those changes.

This layer has not been approved by the school board. If using this data to determine what school to attend, contact Bay District Schools 850-872-4100 for final determination.

This data is provided with the understanding that the conclusions drawn from such information are solely the responsibilities of the user. The GIS data is not a legal representation of the features depicted, and any assumption of the legal status of this data is hereby disclaimed. Errors or omissions should be reported to the Bay County GIS Division 850-248-8071.

Attributes

schoolzone (Double, 11, 0)

Number assigned to each zone.

hs_name (Text, 45)

Name of the high school that zone attends; see table.

hs_code (Text, 4)

Unique school identifier used by the Bay District Schools; see table.
